Give yourself the luxury of unlimited adjustability each night with the all-new F-concept Motion. Created to provide the ultimate degree of convenience to sleepers, our adjustable bed frame moves with the touch of a wireless remote control, which is complete with flat and zero gravity preset positions and head and foot articulation.

F-concept left no extras out when designing this mattress, outfitting it with power outage protection, a secure MegaFit system, a stable design and the ability to sync with another base to adapt to your needs. As you climb into bed at the end of a long day, the F-concept Adjustable Mattress's silent motors will guide your mattress into the exact position you need, whether you want to relax with a good book, watch a few episodes of your favorite show, or drift off to sleep right away.
